EXTRACT FROM THE ACT OF FEBRUARY 5, 1917

SEC. 1. * * * That the term "seaman" as used in this act shall include every person signed on the ship's articles and employed in any capacity on board any vessel arriving in the United States from any foreign port or place.

SEC. 10. (As amended by Sec. 27 of immigration act of 1924.) That it shall be the duty of every person, including owners, masters, officers, and agents of vessels of transportation lines, or international bridges or toll roads, other than railway lines which may enter into a contract as provided in section 23, bringing an alien to, or providing a means for an alien to come to, the United States, to prevent the landing of such alien in the United States at any time or place other than as designated by the immigration officers. Any such person, owner, master, officer, or agent who fails to comply with the foregoing requirements shall be guilty of a misdemeanor and on conviction thereof shall be punished by a fine in each case of not less than \$200 nor more than \$1,000, or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment; or, if in the opinion of the Attorney General, it is impracticable or inconvenient to prosecute the person, owner, master, officer, or agent of any such vessel, such person, owner, master, officer, or agent shall be liable to a penalty of \$1,000, which shall be a lien upon the vessel whose owner, master, officer, or agent violates the provisions of this section, and such vessel shall be libeled therefor in the appropriate United States court.

(b) Proof that the alien failed to present himself at the time and place designated by the immigration officers shall be prima facie evidence that such alien has landed in the United States at a time or place other than as designated by the immigration officers.

Extract from Section 15

SEC. 15. That * * * immigration officials may order a temporary removal of such aliens for examination at a designated time and place, but such temporary removal shall not be considered a landing, nor shall it relieve vessels, the transportation lines, masters, agents, owners, or consignees of the vessel upon which said aliens are brought to any port of the United States from any of the obligations which, in case such aliens remain on board, would under the provisions of this act bind the said vessels, transportation lines, masters, agents, owners, or consignees: * * * Whenever a temporary removal of aliens is made the vessels or transportation lines which brought them and the masters, owners, agents, and consignees of the vessel upon which they arrive shall pay all expenses of such removal and all expenses arising during subsequent detention, pending decision on the aliens' eligibility to enter the United States and until they are either allowed to land or returned to the care of the line or to the vessel which brought them, such expenses to include those of maintenance, medical treatment in hospital or elsewhere, burial in the event of death, and transfer to the vessel in the event of deportation, excepting only where they arise under the terms of any of the provisions of section eighteen hereof. Any refusal or failure to comply with the provisions hereof shall be punished in the manner specified in section eighteen of this act.

EXTRACT FROM THE ACT OF DECEMBER 26, 1920

An Act to provide for the treatment in hospital of diseased alien seamen. * * * That alien seamen found on arrival in ports of the United States to be afflicted with any of the disabilities or diseases mentioned in section 35 of the act of February 5, 1917, * * * shall be placed in a hospital designated by the immigration official in charge at the port of arrival and treated, all expenses connected therewith, including burial in the event of death, to be borne by the owner, agent, consignee, or master of the vessel, and not to be deducted from the seamen's wages, and no such vessel shall be granted clearance until such expenses are paid or their payment appropriately guaranteed and the collector of customs so notified by the immigration official in charge: *Provided*, That alien seamen suspected of being afflicted with any such disability or disease may be removed from the vessel on which they arrive to an immigration station or other appropriate place for such observation as will enable the examining surgeons definitely to determine whether or not they are so afflicted, all expenses connected therewith to be borne in the manner hereinbefore prescribed. * * *

EXTRACT FROM THE ACT OF MAY 26, 1924

SEC. 3. When used in this act the term "immigrant" means any alien departing from any place outside the United States destined for the United States, except * * * (5) a bona fide alien seaman serving as such on a vessel arriving at a port of the United States and seeking to enter temporarily the United States solely in the pursuit of his calling as a seaman.

SEC. 19. No alien seaman excluded from admission into the United States under the immigration laws and employed on board any vessel arriving in the United States from any place outside thereof, shall be permitted to land in the United States, except temporarily for medical treatment, or pursuant to such regulations as the Attorney General may prescribe for the ultimate departure, removal, or deportation of such alien from the United States.

SEC. 20. (a) The owner, charterer, agent, consignee, or master of any vessel arriving in the United States from any place outside thereof who fails to detain on board any alien seaman employed on such vessel until the immigration officer in charge at the port of arrival has inspected such seaman (which inspection in all cases shall include a personal physical examination by the medical examiners), or who fails to detain such seaman on board after such inspection or to deport such seaman if required by such immigration officer or the Attorney General to do so, shall pay to the collector of customs of the customs district in which the port of arrival is located the sum of \$1,000 for each alien seaman in respect of whom such failure occurs. No vessel shall be granted clearance pending the determination of the liability to the payment of such fine, or while the fine remains unpaid, except that clearance may be granted prior to the determination of such question upon the deposit of a sum sufficient to cover such fine, or of a bond with sufficient surety to secure the payment thereof approved by the collector of customs. The Attorney General may, upon application in writing therefor, mitigate such penalty to not less than \$200 for each seaman in respect of whom such failure occurs, upon such terms as the Attorney General in his discretion shall think proper. This section, as amended, shall apply to all penalties arising subsequent to June 5, 1940.

(b) Proof that an alien seaman did not appear upon the outgoing manifest of the vessel on which he arrived in the United States from any place outside thereof, or that he was reported by the master of such vessel as a deserter, shall be prima facie evidence of a failure to detain or deport after requirement by the immigration officer or the Attorney General.

† When delivery to the immigration station is directed, the aliens must be detained on board of the ship on which they arrived pending delivery to the immigration station. Such transfer must be made by the most direct and expeditious route with the least possible contact with the public, and at the expense and responsibility of the steamship company. Aliens who have been held for further medical examination in the belief that they are suffering from communicable diseases must be completely isolated from other passengers and from the public.

EXTRACT FROM THE ACT OF FEBRUARY 5, 1917

SEC. 1. * * * That the term "seaman" as used in this act shall include every person signed on the ship's articles and employed in any capacity on board any vessel arriving in the United States from any foreign port or place.

SEC. 10. (As amended by Sec. 27 of immigration act of 1924.) That it shall be the duty of every person, including owners, masters, officers, and agents of vessels of transportation lines, or international bridges or toll roads, other than railway lines which may enter into a contract as provided in section 23, bringing an alien to, or providing a means for an alien to come to, the United States, to prevent the landing of such alien in the United States at any time or place other than as designated by the immigration officers. Any such person, owner, master, officer, or agent who fails to comply with the foregoing requirements shall be guilty of a misdemeanor and on conviction thereof shall be punished by a fine in each case of not less than \$200 nor more than \$1,000, or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment; or, if in the opinion of the Attorney General, it is impracticable or inconvenient to prosecute the person, owner, master, officer, or agent of any such vessel, such person, owner, master, officer, or agent shall be liable to a penalty of \$1,000, which shall be a lien upon the vessel whose owner, master, officer, or agent violates the provisions of this section, and such vessel shall be libeled therefor in the appropriate United States court.

(b) Proof that the alien failed to present himself at the time and place designated by the immigration officers shall be prima facie evidence that such alien has landed in the United States at a time or place other than as designated by the immigration officers.

Extract from Section 15

SEC. 15. That * * * Immigration officials may order a temporary removal of such aliens for examination at a designated time and place, but such temporary removal shall not be considered a landing, nor shall it relieve vessels, the transportation lines, masters, agents, owners, or consignees of the vessel upon which said aliens are brought to any port of the United States from any of the obligations which, in case such aliens remain on board, would under the provisions of this act bind the said vessels, transportation lines, masters, agents, owners, or consignees: * * * Whenever a temporary removal of aliens is made the vessels or transportation lines which brought them and the masters, owners, agents, and consignees of the vessel upon which they arrive shall pay all expenses of such removal and all expenses arising during subsequent detention, pending decision on the aliens' eligibility to enter the United States and until they are either allowed to land or returned to the care of the line or to the vessel which brought them, such expenses to include those of maintenance, medical treatment in hospital or elsewhere, burial in the event of death, and transfer to the vessel in the event of deportation, excepting only where they arise under the terms of any of the provisions of section eighteen hereof. Any refusal or failure to comply with the provisions hereof shall be punished in the manner specified in section eighteen of this act.

EXTRACT FROM THE ACT OF DECEMBER 26, 1920

An Act to provide for the treatment in hospital of diseased alien seamen. * * * That alien seamen found on arrival in ports of the United States to be afflicted with any of the disabilities or diseases mentioned in section 35 of the act of February 5, 1917, * * * shall be placed in a hospital designated by the immigration official in charge at the port of arrival and treated, all expenses connected therewith, including burial in the event of death, to be borne by the owner, agent, consignee, or master of the vessel, and not to be deducted from the seamen's wages, and no such vessel shall be granted clearance until such expenses are paid or their payment appropriately guaranteed and the collector of customs so notified by the immigration official in charge: *Provided*, That alien seamen suspected of being afflicted with any such disability or disease may be removed from the vessel on which they arrive to an immigration station or other appropriate place for such observation as will enable the examining surgeons definitely to determine whether or not they are so afflicted, all expenses connected therewith to be borne in the manner hereinbefore prescribed. * * *

EXTRACT FROM THE ACT OF MAY 26, 1924

SEC. 2. When used in this act the term "immigrant" means any alien departing from any place outside the United States destined for the United States, except * * * (5) a bona fide alien seaman serving as such on a vessel arriving at a port of the United States and seeking to enter temporarily the United States solely in the pursuit of his calling as a seaman. * * *

SEC. 19. No alien seaman excluded from admission into the United States under the immigration laws and employed on board any vessel arriving in the United States from any place outside thereof, shall be permitted to land in the United States, except temporarily for medical treatment, or pursuant to such regulations as the Attorney General may prescribe for the ultimate departure, removal, or deportation of such alien from the United States.

SEC. 20. (a) The owner, charterer, agent, consignee, or master of any vessel arriving in the United States from any place outside thereof who fails to detain on board any alien seaman employed on such vessel until the immigration officer in charge at the port of arrival has inspected such seaman (which inspection in all cases shall include a personal physical examination by the medical examiners), or who fails to detain such seaman on board after such inspection or to deport such seaman if required by such immigration officer or the Attorney General to do so, shall pay to the collector of customs of the customs district in which the port of arrival is located the sum of \$1,000 for each alien seaman in respect of whom such failure occurs. No vessel shall be granted clearance pending the determination of the liability to the payment of such fine, or while the fine remains unpaid, except that clearance may be granted prior to the determination of such question upon the deposit of a sum sufficient to cover such fine, or of a bond with sufficient surety to secure the payment thereof approved by the collector of customs. The Attorney General may, upon application in writing therefor, mitigate such penalty to not less than \$200 for each seaman in respect of whom such failure occurs, upon such terms as the Attorney General in his discretion shall think proper. This section, as amended, shall apply to all penalties arising subsequent to June 5, 1940.

(b) Proof that an alien seaman did not appear upon the outgoing manifest of the vessel on which he arrived in the United States from any place outside thereof, or that he was reported by the master of such vessel as a deserter, shall be prima facie evidence of a failure to detain or deport after requirement by the immigration officer or the Attorney General. * * *

† When delivery to the immigration station is directed, the aliens must be detained on board of the ship on which they arrived pending delivery to the immigration station. Such transfer must be made by the most direct and expeditious route with the least possible contact with the public, and at the expense and responsibility of the steamship company. Aliens who have been held for further medical examination in the belief that they are suffering from communicable diseases must be completely isolated from other passengers and from the public.

EXTRACT FROM THE ACT OF FEBRUARY 5, 1917

SEC. 1. * * * That the term "seaman" as used in this act shall include every person signed on the ship's articles and employed in any capacity on board any vessel arriving in the United States from any foreign port or place.

SEC. 10. (As amended by Sec. 27 of immigration act of 1924.) That it shall be the duty of every person, including owners, masters, officers, and agents of vessels of transportation lines, or international bridges or toll roads, other than railway lines which may enter into a contract as provided in section 23, bringing an alien to, or providing a means for an alien to come to, the United States, to prevent the landing of such alien in the United States at any time or place other than as designated by the immigration officers. Any such person, owner, master, officer, or agent who fails to comply with the foregoing requirements shall be guilty of a misdemeanor and on conviction thereof shall be punished by a fine in each case of not less than \$200 nor more than \$1,000, or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment; or, if in the opinion of the Attorney General, it is impracticable or inconvenient to prosecute the person, owner, master, officer, or agent of any such vessel, such person, owner, master, officer, or agent shall be liable to a penalty of \$1,000, which shall be a lien upon the vessel whose owner, master, officer, or agent violates the provisions of this section, and such vessel shall be libeled therefor in the appropriate United States court.

(b) Proof that the alien failed to present himself at the time and place designated by the immigration officers shall be prima facie evidence that such alien has landed in the United States at a time or place other than as designated by the immigration officers.

Extract from Section 15

SEC. 15. That * * * immigration officials may order a temporary removal of such aliens for examination at a designated time and place, but such temporary removal shall not be considered a landing, nor shall it relieve vessels, the transportation lines, masters, agents, owners, or consignees of the vessel upon which said aliens are brought to any port of the United States from any of the obligations which, in case such aliens remain on board, would under the provisions of this act bind the said vessels, transportation lines, masters, agents, owners, or consignees: * * * Whenever a temporary removal of aliens is made the vessels or transportation lines which brought them and the masters, owners, agents, and consignees of the vessel upon which they arrive shall pay all expenses of such removal and all expenses arising during subsequent detention, pending decision on the aliens' eligibility to enter the United States and until they are either allowed to land or returned to the care of the line or to the vessel which brought them, such expenses to include those of maintenance, medical treatment in hospital or elsewhere, burial in the event of death, and transfer to the vessel in the event of deportation, excepting only where they arise under the terms of any of the provisions of section eighteen hereof. Any refusal or failure to comply with the provisions hereof shall be punished in the manner specified in section eighteen of this act.

An Act to provide for the treatment in hospital of diseased alien seamen. That alien seamen found on arrival in ports of the United States to be afflicted with any of the disabilities or diseases mentioned in section 25 of the act of February 5, 1917, * * * shall be placed in a hospital designated by the immigration official in charge at the port of arrival and treated, all expenses connected therewith, including burial in the event of death, to be borne by the owner, agent, consignee, or master of the vessel, and not to be deducted from the seamen's wages, and no such vessel shall be granted clearance until such expenses are paid or their payment appropriately guaranteed and the collector of customs so notified by the immigration official in charge: *Provided*, That alien seamen suspected of being afflicted with any such disability or disease may be removed from the vessel on which they arrive to an immigration station or other appropriate place for such observation as will enable the examining surgeons definitely to determine whether or not they are so afflicted, all expenses connected therewith to be borne in the manner hereinbefore prescribed. * * *

EXTRACT FROM THE ACT OF MAY 26, 1924

SEC. 3. When used in this act the term "immigrant" means any alien departing from any place outside the United States destined for the United States, except * * * (5) a bona fide alien seaman serving as such on a vessel arriving at a port of the United States and seeking to enter temporarily the United States solely in the pursuit of his calling as a seaman. * * *

SEC. 19. No alien seaman excluded from admission into the United States under the immigration laws and employed on board any vessel arriving in the United States from any place outside thereof, shall be permitted to land in the United States, except temporarily for medical treatment, or pursuant to such regulations as the Attorney General may prescribe for the ultimate departure, removal, or deportation of such alien from the United States.

SEC. 20. (a) The owner, charterer, agent, consignee, or master of any vessel arriving in the United States from any place outside thereof who fails to detain on board any alien seaman employed on such vessel until the immigration officer in charge at the port of arrival has inspected such seaman (which inspection in all cases shall include a personal physical examination by the medical examiners), or who fails to detain such seaman on board after such inspection or to deport such seaman if required by such immigration officer or the Attorney General to do so, shall pay to the collector of customs of the customs district in which the port of arrival is located the sum of \$1,000 for each alien seaman in respect of whom such failure occurs. No vessel shall be granted clearance pending the determination of the liability to the payment of such fine, or while the fine remains unpaid, except that clearance may be granted prior to the determination of such question upon the deposit of a sum sufficient to cover such fine, or of a bond with sufficient surety to secure the payment thereof approved by the collector of customs. The Attorney General may, upon application in writing therefor, mitigate such penalty to not less than \$200 for each seaman in respect of whom such failure occurs, upon such terms as the Attorney General in his discretion shall think proper. This section, as amended, shall apply to all penalties arising subsequent to June 5, 1940.

(b) Proof that an alien seaman did not appear upon the outgoing manifest of the vessel on which he arrived in the United States from any place outside thereof, or that he was reported by the master of such vessel as a deserter, shall be prima facie evidence of a failure to detain or deport after requirement by the immigration officer or the Attorney General.

† When delivery to the immigration station is directed, the aliens must be detained on board of the ship on which they arrived pending delivery to the immigration station. Such transfer must be made by the most direct and expeditious route with the least possible contact with the public, and at the expense and responsibility of the steamship company. Aliens who have been held for further medical examination in the belief that they are suffering from communicable diseases must be completely isolated from other passengers and from the public.

EXTRACT FROM THE ACT OF FEBRUARY 5, 1917

Sec. 1. * * * That the term "seaman" as used in this act shall include every person signed on the ship's articles and employed in any capacity on board any vessel arriving in the United States from any foreign port or place.

Sec. 10. (As amended by Sec. 27 of immigration act of 1924.) That it shall be the duty of every person, including owners, masters, officers, and agents of vessels of transportation lines, or international bridges or toll roads, other than railway lines which may enter into a contract as provided in section 23, bringing an alien to, or providing a means for an alien to come to, the United States, to prevent the landing of such alien in the United States at any time or place other than as designated by the immigration officers. Any such person, owner, master, officer, or agent who fails to comply with the foregoing requirements shall be guilty of a misdemeanor and on conviction thereof shall be punished by a fine in each case of not less than \$200 nor more than \$1,000, or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment; or, if in the opinion of the Attorney General, it is impracticable or inconvenient to prosecute the person, owner, master, officer, or agent of any such vessel, such person, owner, master, officer, or agent shall be liable to a penalty of \$1,000, which shall be a lien upon the vessel whose owner, master, officer, or agent violates the provisions of this section, and such vessel shall be libeled therefor in the appropriate United States court.

(b) Proof that the alien failed to present himself at the time and place designated by the immigration officers shall be prima facie evidence that such alien has landed in the United States at a time or place other than as designated by the immigration officers.

Extract from Section 15

Sec. 15. That * * * immigration officials may order a temporary removal of such aliens for examination at a designated time and place, but such temporary removal shall not be considered a landing, nor shall it relieve vessels, the transportation lines, masters, agents, owners, or consignees of the vessel upon which said aliens are brought to any port of the United States from any of the obligations which, in case such aliens remain on board, would under the provisions of this act bind the said vessels, transportation lines, masters, agents, owners, or consignees: * * * Whenever a temporary removal of aliens is made the vessels or transportation lines which brought them and the masters, owners, agents, and consignees of the vessel upon which they arrive shall pay all expenses of such removal and all expenses arising during subsequent detention, pending decision on the aliens' eligibility to enter the United States and until they are either allowed to land or returned to the care of the line or to the vessel which brought them, such expenses to include those of maintenance, medical treatment in hospital or elsewhere, burial in the event of death, and transfer to the vessel in the event of deportation, excepting only where they arise under the terms of any of the provisions of section eighteen hereof. Any refusal or failure to comply with the provisions hereof shall be punished in the manner specified in section eighteen of this act.

EXTRACT FROM THE ACT OF DECEMBER 24, 1920

An Act to provide for the treatment in hospital of diseased alien seamen. * * * That alien seamen found on arrival in ports of the United States to be afflicted with any of the disabilities or diseases mentioned in section 35 of the act of February 5, 1917, * * * shall be placed in a hospital designated by the immigration official in charge at the port of arrival and treated, all expenses connected therewith, including burial in the event of death, to be borne by the owner, agent, consignee, or master of the vessel, and not to be deducted from the seamen's wages, and no such vessel shall be granted clearance until such expenses are paid or their payment appropriately guaranteed and the collector of customs so notified by the immigration official in charge: *Provided*, That alien seamen suspected of being afflicted with any such disability or disease may be removed from the vessel on which they arrive to an immigration station or other appropriate place for such observation as will enable the examining surgeons definitely to determine whether or not they are so afflicted, all expenses connected therewith to be borne in the manner hereinbefore prescribed. * * *

EXTRACT FROM THE ACT OF MAY 26, 1924

Sec. 3. When used in this act the term "immigrant" means any alien departing from any place outside the United States destined for the United States, except * * * (5) a bona fide alien seaman serving as such on a vessel arriving at a port of the United States and seeking to enter temporarily the United States solely in the pursuit of his calling as a seaman.

Sec. 19. No alien seaman excluded from admission into the United States under the immigration laws and employed on board any vessel arriving in the United States from any place outside thereof, shall be permitted to land in the United States, except temporarily for medical treatment, or pursuant to such regulations as the Attorney General may prescribe for the ultimate departure, removal, or deportation of such alien from the United States.

Sec. 20. (a) The owner, charterer, agent, consignee, or master of any vessel arriving in the United States from any place outside thereof who fails to detain on board any alien seaman employed on such vessel until the immigration officer in charge at the port of arrival has inspected such seaman (which inspection in all cases shall include a personal physical examination by the medical examiners), or who fails to detain such seaman on board after such inspection or to deport such seaman if required by such immigration officer or the Attorney General to do so, shall pay to the collector of customs of the customs district in which the port of arrival is located the sum of \$1,000 for each alien seaman in respect of whom such failure occurs. No vessel shall be granted clearance pending the determination of the liability to the payment of such fine, or while the fine remains unpaid, except that clearance may be granted prior to the determination of such question upon the deposit of a sum sufficient to cover such fine, or of a bond with sufficient surety to secure the payment thereof approved by the collector of customs. The Attorney General may, upon application in writing therefor, mitigate such penalty to not less than \$200 for each seaman in respect of whom such failure occurs, upon such terms as the Attorney General in his discretion shall think proper. This section, as amended, shall apply to all penalties arising subsequent to June 5, 1940.

(b) Proof that an alien seaman did not appear upon the outgoing manifest of the vessel on which he arrived in the United States from any place outside thereof, or that he was reported by the master of such vessel as a deserter, shall be prima facie evidence of a failure to detain or deport after requirement by the immigration officer or the Attorney General.

† When delivery to the immigration station is directed, the aliens must be detained on board of the ship on which they arrived pending delivery to the immigration station. Such transfer must be made by the most direct and expeditious route with the least possible contact with the public, and at the expense and responsibility of the steamship company. Aliens who have been held for further medical examination in the belief that they are suffering from communicable diseases must be completely isolated from other passengers and from the public.

EXTRACT FROM THE ACT OF FEBRUARY 5, 1917

SEC. 1. . . . That the term "seaman" as used in this act shall include every person signed on the ship's articles and employed in any capacity on board any vessel arriving in the United States from any foreign port or place.

SEC. 10. (As amended by Sec. 27 of immigration act of 1924.) That it shall be the duty of every person, including owners, masters, officers, and agents of vessels of transportation lines, or international bridges or toll roads, other than railway lines which may enter into a contract as provided in section 23, bringing an alien to, or providing a means for an alien to come to, the United States, to prevent the landing of such alien in the United States at any time or place other than as designated by the immigration officers. Any such person, owner, master, officer, or agent who fails to comply with the foregoing requirements shall be guilty of a misdemeanor and on conviction thereof shall be punished by a fine in each case of not less than \$200 nor more than \$1,000, or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment; or, if in the opinion of the Attorney General, it is impracticable or inconvenient to prosecute the person, owner, master, officer, or agent of any such vessel, such person, owner, master, officer, or agent shall be liable to a penalty of \$1,000, which shall be a lien upon the vessel whose owner, master, officer, or agent violates the provisions of this section, and such vessel shall be libeled therefor in the appropriate United States court.

(b) Proof that the alien failed to present himself at the time and place designated by the immigration officers shall be prima facie evidence that such alien has landed in the United States at a time or place other than as designated by the immigration officers.

Whenever a temporary removal of aliens is made the vessels or transportation lines which brought them and the masters, owners, agents, and consignees of the vessel upon which they arrive shall pay all expenses of such removal and all expenses arising during subsequent detention, pending decision on the aliens' eligibility to enter the United States and until they are either allowed to land or returned to the care of the line or to the vessel which brought them, such expenses to include those of maintenance, medical treatment in hospital or elsewhere, burial in the event of death, and transfer to the vessel in the event of deportation, excepting only where they arise under the terms of any of the provisions of section eighteen hereof. Any refusal or failure to comply with the provisions hereof shall be punished in the manner specified in section eighteen of this act.

I HEREBY CERTIFY that to the best of my knowledge and belief the foregoing is a true and complete statement of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage among the alien passengers.

Ship's Surgeon.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

TO THE U. S. IMMIGRATION AND NATURALIZATION OFFICER IN CHARGE:

I HEREBY CERTIFY that to the best of my knowledge and belief the foregoing is a true and complete statement of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage among the alien passengers.

Ship's Surgeon.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations. 16-84694-1

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. Ship's Surgeon.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

TO THE U. S. IMMIGRATION AND NATURALIZATION OFFICER IN CHARGE:

I HEREBY CERTIFY that to the best of my knowledge and belief the foregoing is a true and complete statement of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage among the alien passengers.

Paul W. Lindsey

Ship's Surgeon.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.

REPORT OF SHIP'S SURGEON

U. S. DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE

INSTRUCTIONS

To masters and medical officers of ships, and others concerned:

Under the authority of sections 12 and 13 of the act of Congress of February 5, 1917, it is hereby directed that on the arrival of a ship bringing passengers from a foreign port to any port of the United States the ship's surgeon or, if no surgeon, the master shall deliver in person to the United States Immigration and Naturalization officer in charge, or his authorized representative, a complete report on Form I-442 with respect to all alien passengers, of all injuries, diseases, and illnesses—mental or physical—existing at time of embarkation, and of any such injuries, diseases, and illnesses, and births and deaths developing or occurring during the voyage.

Said report shall state in each instance the name of the passenger concerned; whether a first-cabin, second-cabin, or steerage passenger or a stowaway; the letter or number used to designate the sheet of the passenger manifest on which the said passenger's name is to be found, and the number indicating the position of his name on said sheet; the nature of the disease or injury from which he is or has been suffering and his actual condition at the time of arrival (e. g., "improved," "recovered," "moribund," "dead").

Under the heading "Remarks" the report shall contain such notations as "able to travel," "accompanied by family," "removed at quarantine," "removed at quarantine with family," "in ship's hospital," or other remarks which may be of assistance to the United States Immigration and Naturalization officers in protecting the welfare of the sick or in accounting for missing passengers.

Diagnoses and all other statements appearing in said report must be typewritten, or printed in ink, in the English language. The ship's surgeon or, if no surgeon, the master shall furthermore certify that to the best of his knowledge and belief his report on Form I-442, as herein prescribed, comprises a true and complete statement.

The Immigration and Naturalization officers in charge at the various ports of the United States have full authority to prevent the debarkation of the passengers from a ship until the ship's surgeon, or, in lieu thereof, the master of the ship, shall have furnished a medical report, as above indicated.

For further information regarding the use of this form, see Part 107, Title 8, Code of Federal Regulations.
